## **BELL & MCCOY LIGHTING AND CONTROLS IS PLEASED TO ANNOUNCE THE PROMOTIONS OF ROB DUNCAN AND JIM MOHR:**

### **ROB DUNCAN - VICE-PRESIDENT OF LIGHTING AND CONTROLS**

Rob Duncan has been promoted to Vice-President of Lighting and Controls for Bell & McCoy Companies. Rob started our first lighting and controls business in June 2006 and has worked hard to build our team and make us a viable rep in the Houston market. Rob has a degree from Texas A&M University and prior to Bell & McCoy spent 10 years with Lutron Electronics. Rob has a huge passion to help us grow overall and in his new role he will be working with all the General Managers to help them build their businesses to even bigger levels than they are today. This is a new position for us and much needed as our business has grown considerably over the last 5 years.

### **JIM MOHR - GENERAL MANAGER**

Jim Mohr has been promoted to General Manager of Bell & McCoy Lighting and Controls Houston. Jim started with us in November 2014 as our lighting sales manager and in a short time has done a great job in gaining the confidence of our people and customers in his ability to lead this business. Jim is also a graduate of Texas A&M University and prior to us worked in lighting manufacturing and in the rep business in North Texas. I am excited to watch Jim grow with us and expand on an already very successful business.

**This is an exciting time at Bell & McCoy Companies and our future success is dependent on having the right leaders in key roles that can help keep us moving forward and building this business. Congratulations to Rob and Jim!**

---

### **About Bell & McCoy Companies**

Bell & McCoy was established in 1972 and, with over 220 employees, we have become known as one of the largest agencies in the country. We cover the six states of Texas, Oklahoma, Louisiana, Arkansas, Mississippi and Western Tennessee. The manufacturers that we represent are sold through distribution and we are focused on the commercial, residential, industrial and municipality markets. Our time is spent working with distributors, electrical contractors, engineers, architects, lighting designers, general contractors, etc. to educate and influence our products in the market.
